

Process Safety Learning®

Enhance PSM Competencies.

“ *This course made people think differently about their job as soon as they were finished – and that’s what we were hoping for.* ”

Building process safety competencies and incrementally.

Process Safety Learning® is engaging, cost-effective online training that enables organizations to manage and improve the competencies of their most important asset – their staff. Companies can author, deliver, and track training across multiple facilities, and oversee and store all subscriber training and certification records.

Get More for your Corporate Training Budget

- Scalable training platform for small and large companies
- Align and reinforce training across all levels and facilities
- Electronic record keeping makes it easy to track and analyze subscriber progress, as well as to maintain records for compliance and auditing
- Reduce overhead training costs and eliminate down time

Access High Quality Training Course Content

- Incremental learning with shorter, targeted training blocks to build up competencies over time
- Access library of a variety of PSM topics
- Material created and reviewed by process safety industry experts
- Create/upload training and on-boarding courses

Minimize Risk

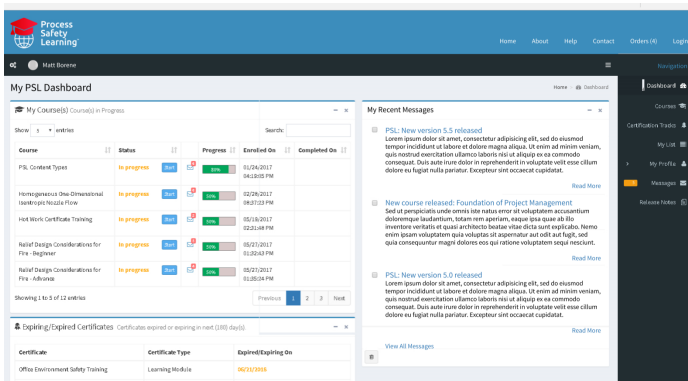

- Accelerate competencies
- Best practices education from leading safety experts
- Easy automated record-keeping capabilities

Maximize Potential

- Fewer work interruptions with increased productivity
- Learning flexibility to meet all needs & schedules
- Engaging learning modules to encourage learning

“ The quality of the knowledge of the facilitators was very credible and respectful. They kept things moving. ”

Process Safety Learning® features a personal dashboard for each user to easily track course availability, progress, and certifications, as well as providing messaging.
